FOREWORD

Twenty years have come and gone through the doors of Austin High School. These halls could give forth some interesting stories of those years. Thousands of students have passed in and out of Austin's doors, adding to her memories.

In the composing and editing of Austin's 20th Anniversary Round-Up, the staff has had one main purpose—to edit a book which will in the future bring friends to mind, relive treasured experiences once again, and provide many hours of pleasant thoughts of school days gone by.

Dear Bob,
It's been really nice being with you, in study hall, etc. Thank you for helping me keep out of trouble; you never let on when Sandra and I ditch! Hope to know you better next year; and have fun this summer. See you at the swimming pool!
Love,
Sarah (Woodfin

Dear Bob
It's been nice

November 7, 1949

To the Staff of the Austin High School Annual:

Since this year is the 20th anniversary of the students' annual publication of Austin High School, "The Roundup", I am glad to have the opportunity of extending the congratulations of the El Paso school system as well as my own felicitations on this occasion.

The custom of publishing high school annuals has many advantages and satisfactions besides those which are evident in the course of its preparation and at the moment each student receives his copy at the end of the year with a joyful expression. Recently, and many times previously, we in the central offices have had to hunt up old high school annuals of fifteen, twenty, or thirty years ago to obtain evidence on some point whose truth needed badly to be established. The annual would provide the evidence where other records were missing or imperfect. Was So-and-so a student that year? What class was he in? Did Miss Blank teach in that year? What did she teach then? Etc.

Annuals with their abundant pictures show us in "black and white" so much information about years long gone by that they should be treasured by all who receive them.

DISTRIBUTIVE EDUCATION

The Distributive Education Club was first organized at Austin High School in 1942, and is composed of members of the first and second year classes of Distributive Education, or DE, as it is commonly called. The local Club is affiliated with both state and national organizations. All DE students train on part-time jobs in the afternoons, thus receiving practical "on the job" experience in the business world.
